WHAT

UNMISTAKABLE LIVELINESS.

My sketching is all about animal personality. Character. Fascination. Aesthetics. Living realism probably comes closest to describing my style. Because my sketch art is as if the animals were moving in the next moment.

My sketch art lets the viewer immerse himself in the beauty of a special world - in close contact with other personalities. In an aura that touches and moves. As if one were personally very close to the animal.

„CAPTURING ANIMAL CHARACTERISTICS IS ONE THING. TO FEEL THE ESSENCE WHILE LOOKING AT IT IS ENTIRELY MINE.“

WHY

ANIMALS DO US WELL

Anyone who walks through the world with open eyes and a heart sees it every day: animals do us good. They raise and lower our heartbeat. We share the sky, the earth and the water with them - we breathe the same air.

These diverse species inspire and uplift me. Bringing people closer to the souls of the animal world with my modern and purist style is a great goal of mine.

„MY SKETCHING IS LIKE BALLET: IT'S ABOUT A LOT OF EXPRESSION - IT LOOKS EFFORTLESSLY SIMPLE, BUT IT'S NOT EASY.“

LIKE THE SPECIAL

With my specially developed technique, there is not a single brushstroke and also no retouching possibilities. What is on the paper remains. That's what makes my art so distinctive, emotional and lively. Because my sketching is like ballet: it's about a lot of expression - it looks effortlessly easy, but it's not easy.
